Licensed Driller/Pump Installer    Apprentice

THE HISTORY OF THE  
CITY OF BOSTON

The first settlement in Boston was made in 1630 by a group of Puritan settlers from England. They were led by John Winthrop, who named the city after his hometown of Boston in Lincolnshire, England. The settlers established a strict religious and social order, and their influence shaped the city's development for centuries.

In 1630, a group of Puritan settlers from England, led by John Winthrop, arrived in Boston. They were seeking a place where they could practice their religion freely and establish a community based on their principles. The city was founded on a small island in the harbor, and the settlers quickly built a settlement that would become the heart of the city.
